

## **Larwood Health Partnership**

### **S81 OHH**

**Sites in: Worksop, Carlton-in-Lindrick, Langold and Harworth**

**Nurse Practitioners**

**Part-time or Full-time**

**Salary Depending on skills and experience**

Rated Outstanding by CQC Larwood Health Partnership prides itself on the service provided by them to their patients. To enhance that service further we would like to appoint additional Nurse Practitioners to complement our existing team of Nurse Practitioners and Paramedics, in offering on the day appointments and chronic disease management to our Practice population of over 33,000 patients. The range of conditions presenting varies from minor illness to acute onset, urgent conditions.

The applicant needs to have experience in the management of minor illness/injury with a qualification at Level 7 such as the APACs course (Advanced, Physical and Consultation Skills module). A prescribing qualification is essential. Experience of chronic disease management is also desirable for this post

We are seeking to appoint someone who will provide and maintain a high standard of nursing care for patients and integrate well with team members.

**NMC membership paid**

**Indemnity paid**

**Westfield membership paid (after successful probationary period)**

**NHS Pension**

**We support continual professional development.**
